

Incremental composite soil samples: Soil taken from 30 locations in each decision unit (DU) were mixed together to make a single sample

DU-209-G1
25.5 ppm of Arsenic
267 ppm of Lead
Recommend Following Soil Safety Guidelines

DU-209-P1
26.4 ppm of Arsenic
486 ppm of Lead
Recommend Following Soil Safety Guidelines

DU-209-H1
22 ppm of Arsenic
368 ppm of Lead
Recommend Following Soil Safety Guidelines

LEGEND

 Residence Boundary

Incremental Composite Sample Concentrations

 Less than 250 ppm of lead and less than 20 ppm of arsenic. No action required.

 Greater than 250 ppm of lead and/or greater than 20 ppm of arsenic. Recommend using the Soil Safety Guidelines described in the brochure included with this map.
